MAJOR PROJECT:

Automatic Vehicle Speed Control and Alcohol Detection with GSM :

- Controlling the speed of vehicle automatically with ultrasonic sensor along with L2923D if any obstacles are near to car, if any vehicle or a person comes closer engine will be stopped.
- Incase, if driver consumes alcohol the alcohol sensor in steering senses the presence of alcohol through the breathing of driver, shut downs the engine. Alcohol sensor sends a message and location of the car to pre-registered mobile number with GPS and GSM.
